A good stunt driver knows how to pick the best car for the course! *Hot Wheels™ Stunt Track Driver 2 GET 'N DIRTY™* CD-ROM gives you the premium selection of vehicles to choose from in the Select Car menu.

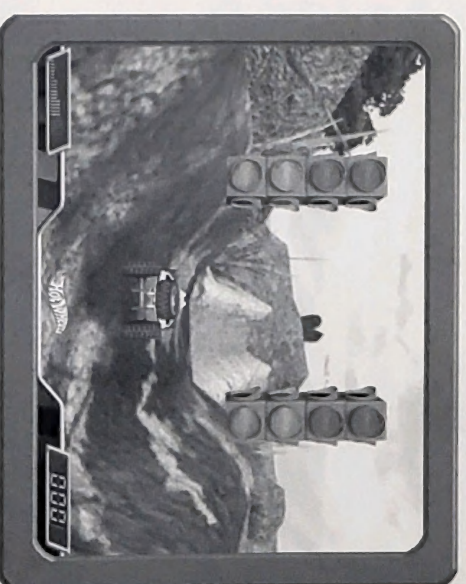

To inspect in 3-D mode, click on the car in the Hot Wheels™ Super Rally Case. You can also gauge its abilities on the track in terms of acceleration, traction, top speed, and handling. Once you've decided on the car you want, click the Green Light to move ahead.

14

Hint: *There are hidden cars that become available only if you achieve extraordinary stunts or conquer the World Championship courses.*

RACING

This is where the action starts! Get ready to burn rubber when the start light turns green!

You can check the Speedometer to see how fast you're driving, and the Lap Time clock for the time you must beat. In the World

15

Championship races, you can only win by finishing the course before the clock reaches 0:00.

Hint: Avoid crashing into obstacles and pesky little creatures! You'll lose valuable time in trying to get back on course.

YOUR RATINGS

Your score will appear on-screen at the end of each race. The Coin icon shows the number of coin powerups you picked up during the race; The Stopwatch icon displays your completion time; the Flying

16

Vehicle icon rating indicates your stunt prowess; and the Crashing Vehicle icon tallies up your crashes during the race. How well your ratings add-up depends on your time, jumps/stunts, and crashes. Think you can do better? Race again by clicking on the Green Light.

If merited, you will be awarded either a Gold, Silver, or Bronze Medal based on your total score. For the super stunt driver, there's a High Score award that is achieved only if you have the first, second, or third highest score for that level. You get to enter your name on the award medal icon for all the competitors to see. Use the up and down arrows on the medals to scroll through the alphabet and numbers for spelling your name. Everyone will know you're the best!

BUILDING YOUR OWN HOT WHEELS™ TRACK

Select the Track Editor icon in the Main Menu to create your own custom race courses! With dozens of different track pieces to choose from, your track layout options are virtually unlimited!

You can design and save up to four unique configurations. Any

17

time you want to make changes, just click on that track and hit the Green Light to edit the course. You can return to the Main Menu by selecting the Red Light.

MAKING TRACKS

Select from 24 different track pieces to design a completely custom 3-D track. To add a track, click on that piece. Use the Pencil Eraser icon to delete the last track piece from the course. The track combinations are almost endless!

18

You can drive anywhere on the 3-D track, but you can only win by racing under the green start banner, through the track pieces and crossing the finish line under the checkered flag banner. If you crash outside of the track you've built, or drive under the checkered flag without finishing most of the track, you will automatically be sent to the last piece of the track you finished to continue racing. There are also up to ten coin powerups on the track that will help you get a better finish time!

Note: Some track layouts created in Hot Wheels™ Stunt Track

19

Driver 2 GET 'N DIRTY™ CD-ROM may not be reproducible using the Hot Wheels™ track system components.

RACING YOUR TRACK

When you've completed your new track design, it's time to give them the ultimate test! Sling some mud and give your course a workout by racing the track in your Hot Wheels® vehicle. Click on the Green Light to select a car from the Hot Wheels™ Super Rally Case. Once you've picked out the car you want, click on the Green Light to start racing!

Better get plenty of practice before competing in the World Championships! It takes a seasoned pro to handle those challenging raceways. To get ready, you can race any of the World

Championship courses, in any order. Just click on the Checkered Flags icon from the Main Menu and you'll go to the Pick A Track screen. Return to the Main Menu anytime by hitting the Red Light.

20

You will also be rated on your stunt ability and number of crashes. Try again until you're satisfied enough with your performance to take on the real World Championship courses!

Hint: You can select the hidden cars and race tracks only after mastering certain courses in the World Championship.
